

Dental Select

Out of network through Stratose

Additional important info

- Dental Select uses the Maverest fees when they are lower than the allowable out of network UCR.
- If the allowable UCR is higher, then that is what is used to determine claim benefits.
- The Maverest dentist still collects up to his/her Maverest allowed fee.

General rules for Maverest providers

- Always submit your usual fee, not the Maverest contracted fee.
- Always verify patient eligibility and benefits.
- Participation can be verified by Customer Service or on the website.
- Network participation is identified on EOB/PTE.
- Maverest dentists accept Maverest allowed fee, unless directly contracted with the carrier's network.
- Each carrier has the option to exclude a specific dentist at its own discretion.
